

**SR 1107 (West Eighth Street)** - This facility connects a major thoroughfare and a minor thoroughfare, Main Street (NC 205) and Pine Street respectively. It primarily collects residential traffic, but also provides access to Tuscarora Yarns, a major employer in the area. This two-lane facility should be adequate for traffic throughout the planning period.

**SR 1976 (East Eighth Street)** - SR 1976 serves as a radial connector between Main Street (NC 205) and SR 1975. It primarily collects residential traffic. This two-lane facility should be adequate for traffic throughout the planning period.

**Dorsett Street (SR 1975 to SR 1976)** - This residential street connects a major and minor thoroughfare, SR 1975 (East First Street) and SR 1976 (East Eighth Street) respectively. Dorsett Street primarily collects residential traffic but also provides access to Union Electric and to a recreational facility. This two-lane facility should be adequate for traffic throughout the planning period.

**Pine Street (NC 205 to SR 1107)** - This residential street connects a major and minor thoroughfare as well; NC 205 and West Eighth Street, respectively. In addition to collecting residential traffic, Pine Street provides access to Tuscarora Yarns, a major employer in the area. This two-lane facility should be adequate for traffic throughout the planning period.
